

OPERATOR READINESS FOR THE ERA OF DATA-CENTRIC COMMAND AND CONTROL

FOUNDED BY A COLONEL, U.S. ARMY (RETIRED) · 27 YEARS · OPERATIONS & COMMAND · WESTFIELD, INDIANA

THE READINESS GAP

New command and control information systems reach operations centers faster than watch floors can grow operators who exploit them under pressure.

WaveSurgeAI closes that gap with structured Programs of Instruction, hands-on training on the actual workstations, and instructors who have stood the watch themselves.

CORE CAPABILITIES

- **Maven Smart System Operator Training.** Structured operator readiness programs for Joint Operations Center environments: mission-tailored Programs of Instruction, hands-on practical exercises on government-furnished workstations, and scenario-driven assessment tied to real mission profiles.
- **Readiness Evaluation.** Graded capstone exercises with standardized evaluation outlines that produce measurable, comparable readiness data for commanders.
- **Mobile Training Team Delivery.** Training delivered on-site at state and territory operations centers, bringing qualified instructors, courseware and mission-tailored exercises to the watch floor.
- **Train-the-Trainer Programs.** Instructor development tracks that certify unit trainers to sustain operator readiness long after the mobile training team departs.
- **Domestic Operations & Defense Support of Civil Authorities.** Curriculum and exercises grounded in National Guard mission sets: civil-authority support, emergency management integration and the Title 32 operating environment.

DIFFERENTIATORS

- **Operations Depth.** Leadership with 27 years in operations and command, from infantry battalion command to Chief Operating Officer (J3) of the 13,500+ person Indiana National Guard. Operational fluency earned on watch, not vendor familiarization.
- **Instructor Discipline.** Curriculum built to the Systems Approach to Training and the Analysis-Design-Development-Implementation-Evaluation model, with task, condition and standard learning objectives.
- **Rapid Mobilization.** Structured to deliver from day one of performance: program leadership, training development and mobile training teams staffed at award.
- **Sustainment That Sticks.** Every engagement is designed to leave a unit able to train itself.

COMPANY DATA

LEGAL NAME

WaveSurgeAI, LLC

UNIQUE ENTITY ID

Y3RYND8EV9V4

COMMERCIAL AND GOVERNMENT ENTITY CODE

22QD4

NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM

541519 — Other Computer Related Services (primary)

611420 — Computer Training

PRODUCT SERVICE CODES

DA01 · R406 · U008 · U012

SOCIOECONOMIC STATUS

Service-Disabled Veteran-Owned Small Business, certified by the Small Business Administration

REGISTRATION

SAM.gov — Active

CONTRACTING

Qualifying requirements may be eligible for sole-source or set-aside award under Federal Acquisition Regulation subpart 19.14. Certification is verifiable at search.certifications.sba.gov.

WaveSurgeAI welcomes teaming with established prime and small-business partners on Guard and Department of Defense training requirements.
